What's The Scoop?

Happy New Year! 2026 is officially here, and we couldn't be more excited. This year is packed with events, meetings, new initiatives, programs, and plenty more for SC811. We have a lot planned, and we can't wait to share it all with you!

Exactix v4 is now live! This release includes updates to the ticket entry form and introduces a new pop-up feature to help users navigate upcoming changes. House Bill 3571, which affects Large Project Tickets, will take effect on May 22. To help you prepare, we'll be hosting webinars covering updates to the Damage Prevention Act, and short videos explaining Exactix v4 updates are also available [here].

In addition, new sponsorship opportunities are now available for 2026! If your team needs training, SC811 offers Tailgate Talks and is always available to answer your questions. We also encourage you to get involved with SC811 initiatives, attend upcoming events, and take advantage of our resources to stay up to date on best practices in damage prevention.

Winter Safety Tip ❄️ ❄️ ❄️ ❄️ ❄️ ❄️ ❄️

Cold weather can make soil harder and more unpredictable. Use extra caution when hand digging in the tolerance zone since frozen dirt increases the chance of tool slips and line contact.

This Month's Must-Know

Exactix v4 is LIVE!

Exactix v4 was released in December, introducing several form updates and a new pop-up feature designed to prepare users for upcoming changes related to Large Project Tickets. Short videos explaining these updates are available to view below.
